

Anchors Away!

APRAXIA CAMP

“Set Sail”

with

Therapy360

Anchors Away is a five day camp for children ages 4-7 with a diagnosis of Childhood Apraxia of Speech or suspected Childhood Apraxia of Speech. There will be an intense focus on the Principles of Motor Learning and functional communication in the context of social group activities. Our camp's goal is to incorporate speech, language and social skills in a meaningful context, while providing a multi- sensory approach to learning speech with the use of appropriate cueing and support hierarchy. Parents will be provided resources and will be able to consult with clinicians daily, as well as participate in a parent “Lunch and Learn” on the final day of camp.

June 12-16, 2017, 9:00-11:30

\$150 per registrant
