Apraxia Kids is pleased to share our application to present at the 2019 National Conference scheduled for July 11 - 13, 2019 in Pittsburgh, Pennsylvania. This conference (our typical demographic is 50% professionals and 50% parent/caregivers) promises to bring a sizable gathering of almost 450 families and professionals together.

As the nonprofit leader on childhood apraxia of speech, our mission is to strengthen the support systems in the lives of children with apraxia, so that each child is afforded his/her best opportunity to develop optimal communication skills. It is for this purpose that we meet for our annual conference. This conference serves a broad array of learner needs, from new or inexperienced SLPs and families, to seasoned/advanced SLPs as well as parents of older children who have been on the apraxia journey for some time.

We encourage submissions to meet the needs of a specific target group. Submissions should ideally include "how to" and "hands on" strategies and evidence-based research as often as possible, addressing a full range of issues. Apraxia Kids encourages collaboration between speakers in the development of presentations (i.e. co-presenters or small panels). For this conference, we will be offering options for different session lengths, so please carefully consider what might work best for your proposal.
