

**New this year!**

## **School-based, professional focus at the Apraxia Kids National Conference.**

**A series of school-based sessions are included in the standard conference registration. School-based professionals can select these options to have a more intensive learning experience.**

**Three pre-conference sessions exclusively for speech-language pathologists are available for an additional fee.**

- **Preschool**
- **Elementary School**
- **Middle / High School**

### **What can school-based SLPs expect from this experience?**

- Enhance your skills for differential diagnosis.
- Meet the challenge of mixed childhood apraxia and other co-occurring conditions.
- Manage caseloads for providing optimal services to children with CAS.
- Balance group vs individual therapy demands.
- Learn therapy strategies applicable to students with apraxia and/or other speech sound disorders.
- Enhance your home carryover techniques.
- Share challenges, strategies and successes with other school-based SLPs.
