If you are a young adult who grew up with CAS, nurses need to hear your stories.

CHILDoOd APRAXIA OF SPEECH

The purpose of this research is to understand what it is like to grow up with childhood apraxia of speech.

We want to learn how nurses can help people who have CAS deal with situations that come up with family and friends at home, school, and work.

What is involved?
- One 5-minute online survey
- One 60 minute online (Zoom) interview

Participants will receive:
- A $25.00 Amazon gift card upon completion of the interview.
- Entry into a random drawing for an additional $100.00 Amazon gift card.

Are you eligible?
- Individuals ages 18 – 25 years old
- Diagnosed as a child with idiopathic CAS
- Able to communicate (verbally or in writing) in English
- Comfortable talking about experiences of growing up with CAS

If you or someone you know is interested in helping with this research, we would love to hear from you.
