Seeking Children Ages 7-17 with Childhood Apraxia of Speech and their Caregivers

What's Involved?

We are conducting virtual focus groups and individual interviews with children (ages 7-17) diagnosed with Childhood Apraxia of Speech (CAS), as well as their caregivers. From the information, we will create survey questions.

Participants will receive \$20 per hour for their valuable time.

Why Participate?

Contribute to Research: Help us better understand CAS.
Make a Difference: Your insights can shape future research.

If you're interested in participating, please contact Michelle Swartz at michelle.swartz@jefferson.edu.
