HELP COMPUTERS LEARN "S"

ENGLISH-SPEAKING CHILDREN 8-17 YEARS WITH /S/ MISARTICULATIONS

- The goal of the study is to collect recordings of people saying words and sentences so we can train a computer to recognize clear and unclear productions.

- In the future this would help provide computer-based home practice for children with speech difficulties

- **WHAT IS REQUIRED?**
  - Online study via zoom
  - Parents must consent and complete questionnaires
  - Children read, name, and imitate words and sentences
  - Up to 1.5 hours of your time

UP TO $40 GIFT CARD
